Holly Warfield helps students create Digital Stc

+

Traditionally, the only ways students could share what they had learned were research papers, short presentations, or posters. Unfortunately, these methods did not fully capture the experience and growth of the students. Recently this has changed, with newer resources providing far better ways for students to communicate their work to teachers, future employers, and even themselves.

Taking advantage of this opportunity, engineering capstone students have added a valuable digital content component to their projects through a collaboration with Digital Communication Consulting (DigiComm) and their Media Fellow Program. With the help of Holly Warfield ('16), a DigiComm media tutor, Dr. Brad Striebig's ENGR 431 students are creating project websites with the digital storytelling platform Atavist.

In addition to one-on-one consultations for students creating digital content like websites, videos, or portfolios, DigiComm provides a Media Fellow Program where professors can apply to have a DigiComm tutor assist them in incorporating semester-long media projects.

Wix: Gridlines

The screenshot displays the Wix website editor interface. At the top, the Wix logo is on the left, and navigation links for 'Page: About', 'Site', 'Tools', 'Code', 'Help', and 'Upgrade' are in the center. On the right, there are icons for 'Mobile', 'Save', 'Preview', and 'Publish'. The main workspace shows a website layout with text, images, and a sidebar on the left with various editing tools. A blue dialog box is centered on the screen, titled 'Going off the Grid?'. The dialog contains the following text: 'Elements you add here won't show on all screens.' Below this is an illustration of a computer monitor with a blue element on the screen. Further text reads: 'Elements you move outside the gridlines won't show on all screens. Instead, try a full-width element - like a strip - as these look stunning on every device. [Learn More](#)'. At the bottom of the dialog, there is a checkbox labeled 'Don't show this again' and a blue button labeled 'Got it'. A red arrow points from the left sidebar towards the dialog box.
